## Work experience

### Bluebottle Digital - UI/UX Designer

2022 - Present

I have been involved in designing user experiences for a wide range of digital products, including a horse management app, a ride-booking app, and a management portal for agencies and talents,...

For large-scale projects, I create Design Systems for to ensure consistency and streamline development.

I also create prototypes to help clients and team members visualize product functionality and interaction, bridging the gap between design and development.

### FPT Software - Business Analyst

2021 - 2022

As a Business Analyst, I specialized in Robotic Process Automation (RPA), facilitating client meetings to understand existing processes and requirements. I also proposed process improvements that balanced client needs with automation compatibility.

Additionally, I took on other roles, such as Project Manager for a small-scale project and mentor for students participating in a competition organized by FPT.

## Education

### Eggcademy - UI/UX Fundamental

2022

I learned the fundamental principles of UI/UX design and mastered Figma.

### Banking Academy of Vietnam - Banking and Finance

2018 - 2021

Achieve scholarship for excellent student in 2018-2019 and 2019 - 2020 academic year.

## Skills

Management portal, Responsive web design, App design, Design system, Prototyping
